4 pieces
Standard 2x4

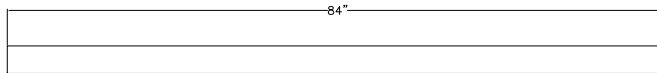

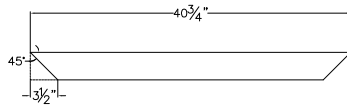

Table Top Supports
3 pieces
Standard 2x4

Bench Seat Support
2 pieces
Standard 2x4

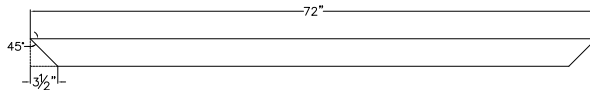

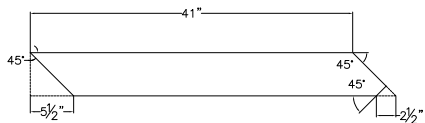

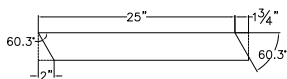

Table Legs
4 pieces
Pressure-Treated 2x6

Diagonal Brace
2 pieces
Standard 2x4

Parts List

I used the following parts. This is by no means a unique solution. Lumber lengths and counts can be adjusted based on lengths available. There is no allowance in the parts list for spare wood in case of incorrect cuts.

Lumber

Standard 2x4:
(5) 10' length
(1) 14' length

Standard 2x6:
(4) 14' length
(1) 8' length

Pressure-treated 2x6:
(2) 8' length

Hardware

Screws:
(75) 3" deck screws (Approximately 1 lb.)

Bolts:
(16) 3/8" x 4" carriage bolt
(16) 3/8" nut (lock nut may be used, but it is difficult to install since the bolt wants to turn)
(16) 3/8" flat washer
(16) 3/8" lock washer (if locknut is not used)
